All DP sites generate a prioritized listing of recapitalization projects as part of their Ten-Year Comprehensive Site Plans. DP validates the requests, and then evaluates descriptions of scope, justification, and estimated costs for proposed recapitalization projects, and integrates them into a single prioritized list that becomes the basis for program planning, budget requests, and program execution.	
DP.10.02.00.0	No	Yes	Facility Disposition	
Definition:			Includes costs for the dismantlement and removal of deactivated facilities and infrastructure that are not radiologically contaminated and are excess to current and future DP mission requirements. These actions are taken at the end of the life of a facility to retire it from service, with adequate regard for the health and safety of workers and the public and the protection of the environment. These actions will improve our ability to manage the facilities portfolio and reduce long-term costs.
