Definition: This code is to be used for receipt of royalties from the Department's Uranium Leasing Program. The Program is administered by the Department's Office of Legacy Management. The uranium leases issued by the Department include two types of royalty payments: an annual royalty and a production royalty. The annual royalty is a flat rate and is paid to the Department whether production has occurrred or not. The production royalty is based on a calculation of the value of the uranium ore that was produced by the mine.
