Principles of Federal Appropriations Law

Second Edition

Volume III

Foreword

Volume III of this second edition continues the process of revising and updating Principles of Federal Appropriations Law, originally published in 1982. This is our “claims and judgments” title, consolidating in one volume our coverage of claims against the United States, claims by the United States (debt collection), and the payment of judgments and related litigation awards.

While we will publish a fourth (and final) volume, the first (1982) edition of Principles is now completely superseded with the issuance of this Volume III.

We thank our readers for their expressions of support and hope they will continue to find Principles a useful reference.

Robert P. Murphy
General Counsel

November 1994

"He who lives a long life and never changes his opinions may value himself upon his consistency; but rarely can be complimented for his wisdom."

Justice Joseph Story in a letter written in 1818, quoted in 75 Harv. L. Rev. 707, 720 (1962).
